PROFILE SUMMARY

Full Stack JavaScript Developer with 3+ years of experience in **MERN Stack, Next.js, React, Node.js, and TypeScript**, delivering **scalable web applications, responsive UIs, and efficient REST APIs**. Skilled in **WordPress/WooCommerce, dashboard development, cloud deployment, CI/CD, and Postman API testing**. Proven track record of **reducing load times by up to 40%, improving mobile conversions by 65%, and streamlining workflows to save 20+ hours/month**. Strong focus on **clean architecture, performance optimization, SEO best practices, and delivering high-quality production-ready solutions**.

EDUCATION

Bachelor's Degree in Software Engineering

Foundation University, Rawalpindi Campus | 2021 – 2025

- Final Year Project: Smart Fitness Agent – AI-powered fitness assistant using computer vision and machine learning for personalized workout recommendations.
- Relevant Coursework: Web Engineering, Data Science, Software Design & Architecture, Database Systems, Human-Computer Interaction

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Chart.js.

Backend: Node.js, Express.js, REST API Development, TypeScript, Postman.

Databases: MongoDB, MongoDB Atlas, SQL, PostgreSQL.

CMS / E-Commerce: WordPress, WooCommerce, Elementor.

Tools & Platforms: Git, GitHub, CI/CD (GitHub Actions), Docker, Vercel, Railway, Hostinger.

EXPERIENCE

1. Freelance Full-Stack / WordPress Developer | Rawalpindi | 2022 – Present

- Delivered 10+ MERN and Next.js apps with enhanced REST APIs and caching, reducing server response times by **40%**.
- **Engineered** real-time dashboards and automated workflows, saving **20+ hours per month** for clients.
- **Implemented** WordPress/WooCommerce solutions, increasing mobile conversions by **65%** and reducing page load times by **30%**.
- **Refactored** Node.js backends, improving system reliability by **35%** and decreasing downtime incidents from **5/month to 2/month**.
- **Directed** full project lifecycles with responsive UI/UX, Agile methodology, and Git, delivering **projects 15–20% faster than client timelines**.

2. Volpea Solutions – Intern | Islamabad | June 2024 – December 2024

- **Created** 3+ responsive cross-platform applications using React.js, Next.js, Node.js, and Express.js.
- **Optimized** UI/UX and accessibility, raising **user interaction and retention by 25%**.
- **Streamlined** Git and Agile/Scrum practices to streamline development, improving team delivery efficiency by **15%**.

3. SMB DigitalZone – MERN Stack Developer | Dubai (Remote) | October 2025 – Present

- **Architecting** scalable backend systems and RESTful APIs with TypeScript, Node.js, and cloud tools, improving system response times by **30%**.
- **Revamped** data flow and deploying live production services, handling **500+ concurrent users** reliably.
- **Contributing** to a performance-based pathway toward a permanent role, achieving **milestone goals 20% ahead of schedule**.

PROJECTS

1. **Gulf Estates UAE** – <https://www.gulfestates.ae/>
 - Full-stack real estate platform with **Next.js, React, Node.js, TypeScript**.
 - **Engineered** admin dashboards managing **500+ property listings**, multilingual features, and streamlined REST APIs, reducing average property search time by **35%**.
2. **Mary Homes UAE** – <https://maryhomesuae.com/>
 - Full-stack property platform with MERN + TypeScript.
 - **Implemented** admin dashboards and CRUD APIs handling 300+ listings and improving client management efficiency by 40%.
3. **SMB Digital Zone** – <https://smbdigitalzone.com/>
 - Scalable e-commerce platform with React, Next.js, Node.js, TypeScript.
 - **Constructed** seller dashboards and Postman-tested REST APIs managing 1000+ products and processing 500+ orders/month, improving inventory tracking speed by 50%.

Achievements

- Delivered 4+ full-stack production applications with responsive, SEO-friendly, cross-browser designs, boosting client user interaction and retention by 30–60%.
